

Agreements with committed actors on implementation of ADORE IT actions, at the end of January 2009, are not formalized and most of them are in a preparatory and clarification phase.

1. PEPS – Sardegna Ricerche (Regional Technology Park), agreement regards: implementation actions for synergy relations with PEPS concerning the use of seaweeds to producing bio fuels; collaboration of Sardegna Ricerche in implementing ADORE IT actions; Sardegna Ricerche contribution to involve other regional institutional actors;
2. PEPS – Chemical Industrial Actors in the area of Porto Torres –SS (A.Mascia), agreement regards: industrial conversion process from raw material to bio fuels; final product arrangement on the market, subject to agreement local distributors involved in the bio fuel local chain;
3. PEPS – Consorzio di Bonifica della Nurra – SS, agreement regards: professional contracts with farmers in the area of the Consortium (30.000 hectares, of which 18.000 irrigable) to be performed between the Consortium institution and farmers, in order to guarantee the raw material for the bio fuels chain. Meeting have been realised with consortium direction to see how to go ahead in new steps;
4. PEPS – Azienda Trasporti Pubblici Sassari – ATP, agreement regards: bio fuels use in the public transports in the city and in the surroundings. Actually PEPS and ATP are discussing that possibility, which involves the local institutions, considering buses have to be adapted or changed;
5. PEPS – E.S.Co. Sardegna, the energy service company which operate in the north part of Sardinia island, in order to verify direct investment on setting bio fuels supply pumps and/or on participating with financial and managerial resources on bio fuels local chain;
6. PEPS – Fuel Companies distributors, at the actual stage there is an on going evaluation on which and how involve the companies in the project.
